Technological Forecasting and Social Change

Author Index—Volume 68

Baker, E.S., 63
Berry, B.J.L., 63
Blind, K., 131

Corredine, J.T., 1
Cuhls, K., 131

de Groot, H.L.F., 151
Devezas, T.C., 1
Duncan, J.F., 59

Eberhart, H.J., 223
Efroni, S., 293

Goldenberg, J., 293
Gottschalk, P., 207
Grupp, H., 131

Hofkes, M.W., 151
Humenik, J.A., 223

Illegems, V., 275

Kim, H., 63
Kostoff, R.N., 223

Linstone, H.A., 309

Miyazawa, T., 81
Modelski, G., 75
Mulder, P., 151
Murphy, J.T., 173

S'Jegers, R., 275
Sager, B., 109
Sokolov, M., 195

Tonn, B.E., 255
Toothman, D.R., 223

Verbeke, A., 275

Watanabe, C., 81

Zhu, B., 81

Book Review—Index Volume 68

Payson, S., *Causality: Models, Reasoning, and Inference* (Judea Pearl), 105

Technological Forecasting & Social Change
68 (2001) 316–317

Technological Forecasting and Social Change

Subject Index—Volume 68

Africa, making the energy transition in, 173

Bibliometrics, text mining using database tomography, 223
Bioethics, scenario on the future of biotechnology, 109
Biotechnology, scenario on the future of, 109

Cellular automata, modeling of the emergence of innovations, 293
Content analysis, description of responsibility for implementation, 207
Customized education, the issue of, technology's impact on society, 195

Delphi method, personal attitudes in the assessment of the future of science and technology: A factor analysis approach, 131

Economic cycles, low-frequency waves of inflation and economic growth: Digital spectral analysis, 63
Empirical study, the organizational context of teleworking implementation, 275
Energy policy, making the energy transition in rural East Africa, 173
Evolutionary growth theory, economic growth and technological change: A comparison of insights from a neo-classical and an evolutionary perspective, 151

Factor analysis, personal attitudes in the assessment of the future of science and technology, 131

Genetic engineering, scenario on the future of biotechnology, 109
Genrational waves, what causes k-waves?, 75

Implementation responsibility, a content analysis of strategic information systems/technology planning documents, 207
Individual learning, technology's impact on society: The issue of mass-customized education, 195
Inflation, low-frequency waves of and economic growth: Digital spectral analysis, 63
Innovation, text mining using database tomography and bibliometrics: A review, 223
Innovations, using cellular automata modeling of the emergence of, 293
Innovative institutional designs, for long-term stewardship of nuclear and hazardous waste sites, 255

K-waves, causes, 75

Learning rate, what causes k-waves?, 75
Logistic growth, the biological determinants of long-wave behavior in socioeconomic growth and development, 1
Long waves, low-frequency waves of inflation and economic growth: Digital spectral analysis, 63
Long-term stewardship, institutional designs of nuclear and hazardous waste sites, 255
Long-waves, the biological determinants in socioeconomic growth and development, 1

0040-1625/01/$ – see front matter © 2001 Elsevier Science Inc. All rights reserved.
PII: S0040-1625(01)00173-1

Non-classical growth theory, economic growth and technological change: A comparison of insights from a neo-classical and an evolutionary perspective, 151
Nuclear waste site, institutional designs for long-term stewardship of, 255

Organizational context, of teleworking implementation, 275

Population dynamics, the biological determinants of long-wave behavior in socioeconomic growth and development, 1

Rural energy, in rural East Africa, 173

Scenario planning, scenario on the future of biotechnology, 109
Science, personal attitudes in the assessment of the future of and technology: A factor analysis approach, 131
Social evolution, what causes k-waves?, 75
Socioeconomic growth and development, the biological determinants of long-wave behavior in, 1
Spectral analysis, low-frequency waves of inflation and economic growth, 63
Standard study interface, technology's impact on society: The issue of mass-customized education, 195
Strategic implementation, description of responsibility for implementation, 207

Technolabor homeostasis, hierarchical impacts of the length of technology waves: An analysis of, 81
Technological change, a comparison of insights from a neo-classical and an evolutionary perspective, 151
Technological change, making the energy transition in rural East Africa, 173
Technology, personal attitudes in the assessment of the future of science and: A factor analysis approach, 131
Technology waves, hierarchical impacts of, 81
Technometabolism, hierarchical impacts of the length of technology waves: An analysis of technolabor homeostasis, 81
Teleworking implementation, the organizational context of, 275
Tomography, text mining using database bibliometrics, 223
